Prior to requesting a hardship withdrawal distribution, you must first attempt to satisfy the financial need by other resources that are reasonably available to you, including but not limited to other distributable amounts under any plan of your employer and any loans where repayment would not create a financial hardship. Your Plan may require that you cease making deferrals to the Plan for a period of six months after taking a hardship withdrawal. If you are under age 59 1/2 you may also be subject to a 10% federal tax penalty on the amount withdrawn.

Please select the reason for this Hardship Withdrawal request:

- Medical expenses for you, your spouse, or your dependent (or primary beneficiary other than your spouse if your plan allows).
- Expenses directly related to the purchase of your principal residence, including mortgage payments.
- tuition-related educational fees, including room and board for the next 12 months for post-secondary education for you, your spouse, your children, or your dependents (or primary beneficiary other than your spouse if your plan allows).
- Amounts required to prevent eviction from, or foreclosure on, your principal residence.
- Medical or funeral expenses for your deceased parent, spouse, child, or dependent (or primary beneficiary other than your spouse if your plan allows).
- Repairs for damaged or uninsured damage to your principal residence due to theft, fire, storm or other casualty.

Please select the vendor and input the amount needed to meet your immediate financial need:

Since you must exhaust all unrestricted Pre 1989 assets before taking a hardship distribution, the table is only displaying vendors with these assets. Click "Add New Row" for additional vendors where you may have Employee Elective Contributions.

A Hardship Withdrawal Disbursement Eligibility Certificate is valid for a period which extends to the last day of the following calendar month. A second request for a certificate will not be permissible until the first certificate has expired.
